Knowledge and Key Questions

What kinds of toys did you play with as a baby?

eg soft or chewable toys, mobiles in bright colours

What is different about the toys you play with now?

They have small parts (eg Lego) or they are more complicated. You might need some special skill to use them, eg a football or a computer game.

What was the same or different about toys children played with in the past?

Children have played with Lego since 1932, but now we have sets like Star Wars Lego. Different types of material were used, for example toy cars were made from metal but now some are made from plastic as well.

Vocabulary

| | |
|---------------|---|
| Past | Times past, eg yesterday or a long time ago |
| Present | Things that happen now |
| Modern | Something made recently, a toy you play with now |
| Old-fashioned | Something made a long time ago, a toy an older family member played with when they were young |
