

Year 3 Homework Menu - January-February 2026

These home learning activities are for families who would like to complete activities linked to our learning in school. We would love to see any activities you do complete but there is no expectation that children will complete or hand in an activity every week.

Be an architect

Using materials you have at home, can you create a Tudor House model? You might even be able to add flames to it!

Be a baker

Use a simple recipe to make your own bread at home and share it with your friends or family.

Be a geographer

Use google earth to look at an ariel image of London. Can you identify the river Thames and Pudding Lane? You could use the search tool to help!

Be a scientist

Can you start your own rock collection from rocks you find in your garden or out and about. What do you notice about them? Are there similarities and differences between them? Can you sort them into groups? Which groups will you choose?

Be an artist

Create a piece of artwork inspired by the Great Fire of London. Use materials you already have at home: paint, crayon, collage.

Be a quizzer

Write a quiz about the Great Fire of London and ask someone at home your questions. Make sure you know the answers so you can tell them if they were right or wrong! Can you set a challenge question too?
