

Year 2 Homework Menu – September to October 2026

These home learning activities are for families who would like to complete activities linked to our learning in school. We would love to see any activities you do complete but there is no expectation that children will complete or hand in an activity every week.

Be a performer

Pick a poem you enjoy and learn it by heart. Practise at home so that you can perform it clearly and with expression. You could add in some actions too. Maybe you could find a poem about school or plants?

Be a historian

Talk to a grown up you know to tell you about school when they were little.

Wild card!

Learn a new skill to share with the rest of the class. It can be anything at all but here are some ideas:

- Learn to spell your whole name
- Learn to tie your shoe laces.
- Learn a new board game.

Be an artist

Sketch some items from your house or outdoors e.g. a cuddly toy, a shoe, a leaf. Try not to use your imagination, it's like taking a photo.

Be a writer

Write some lists with different headings e.g. toys, fruit, colours. Can anyone guess the title for your list when you read the words?

Be a geographer

What can you see from your house? Which things are from nature and what has been made/created by people?

Be a scientist

Go for a walk or an explore in the park and collect a selection of leaves and seeds that you find on the ground. Can you identify which trees/plants they have come from? Can you use them to create a picture or pattern?

Be a reader

Visit the local library (or the school library after school) and borrow some books by an author you've not read before. Can you find any books about school or plants?

Be a mathematician

Practise your counting by counting objects in a set. How many toy cars do you have? Check that all the pieces of a puzzle are in a box. How many baked beans are on your plate?! Think about how to count carefully and take care when you get to the tens numbers e.g. 39, 40.
