Year 3 Homework Menu – November to December 2026

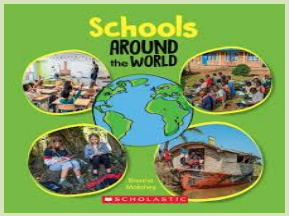

These home learning activities are for families who would like to complete activities linked to our learning in school. We would love to see any activities you do complete but there is no expectation that children will complete or hand in an activity every week.

Be a chef

Help your parents cook! Watch or have a go at chopping and peeling different foods. What meals have you made? What have you learnt?

Be a historian

Ask your parents, someone in your family or research how schools are different around the world. Can you find any interesting pictures? What is the same? What is different?

Wild Card!

- Learn a new skill to share with the rest of the class. It can be anything at all but here are some ideas:
- Read a book that you haven't read before.
- Draw a picture using observational drawing technique.
- Try out meditation.

Be a mathematician

Make different arrangements of your toys in groups of 3 and 4. Different arrangements can you create?

Be a forest school architect

Create your own little bug hotel.
What natural materials can you use? What insects will be in your hotel?
What does a bug hotel need?

Be a performer

Interview one of your toys. What questions can you ask? What answers would the toys give? You could do an interview with a group of toys.

Be a scientist

Create your own magnetic vehicle. Tape a magnet on a toy and pull it along using another magnet.
Which poles attract? Which poles repel? (If you do not have access to a magnet please get in touch and we can provide one).

Be active

Create your own obstacle course. What could you use? How fast can you complete it? Can you get a member of your family to complete it?

Be an artist

Draw an aerial perspective of your house.
Walk around your house and draw the first floor. What details can you add in? Have you made a key? What colours show each room?
